Adriana is a full-stack web-developer based in Austin, Texas. Her academic and performance background in classical music makes her a disciplined, precise, and creative asset to any team. Originally from Orlando, Florida, she understands the importance of keeping users happy with their experiences. She is passionate about inclusivity, diversity, and giving back to her community. As a fresh graduate of the Coding Bootcamp, she is excited to build and design web applications that are intuitive, modular, and accessible.
